18. The above listing is not to be considered all-inclusive of the barriers, conditions or violations encountered by Plaintiff and/or which exist at the Facility. Plaintiff requires an inspection of the Facility in order to photograph, measure and determine all of the discriminatory acts violating the ADA.

19. The removal of the physical barriers, dangerous conditions and ADA violations set forth herein is readily achievable and can be accomplished and carried out without much difficulty or expense pursuant to 42 U.S.C. § 12182(B)(2)(A)(iv); 42 U.S.C. § 12181(9); and 28 C.F.R, § 36.304.

20. The ADA defines “readily achievable as “easily accomplishable and without much difficult or expenses.”42 U.S.C. §12181(9) Congress included in the ADA factors to be considered in evaluating whether removal of a barrier is “readily achievable.” These factors are (1) nature and cost of the action; (2) overall financial resources of the facility or facilities involved; (3) number of persons employed at such facility; (4) effect on expenses and resources; (5) impact of such action upon the operation of the facility; (6) overall financial resources of the

covered entity; (7) overall size of the business of a covered entity; (8) the number, type, and location of its facilities; (9) type of operation or operations of the covered entity, including composition, structure, and functions of the workforce of such entity, and (10) geographic separateness, administrative or fiscal relationship of the facility or facilities in question to the covered entity. Garthright-Dietrich v. Atlanta Landmarks, Inc., 452 F. 3d 1269, 1272-73 (11th Cir. 2006).

The obligation to engage in readily achievable barrier removal is a continuing one. Over time, barrier removal that initially was not readily achievable may later be required because of changed circumstances. DOJ ADA Title III Technical Assistance Manual, Section III-4.4400 Continuing obligation.

**21.** Because, *inter alia*, this facility was designed, constructed, and received its State Licensure on February 21, 2018, Plaintiff asserts that said ADA violations are intentional in nature and will not be corrected absent Court intervention, thus exacerbating the intentional legal harm and injury to which Plaintiff has been and will continue to be subjected in the future.

**22.** Plaintiff will undoubtedly return to the Subject Premises once the barriers to access have been remediated—not only to avail himself of the goods and services available at the Subject Premises, but to confirm and assure himself that the Subject Premises has been brought into compliance with the ADA and *maintained* in compliance with the ADA so that Plaintiff and other persons with disabilities will have equal access to the Subject Premises without fear of discrimination, endangerment of their safety, or social and public embarrassment.

**23.** Independent of his personal desire to access this place of public accommodation as required by law, Plaintiff is an advocate of the rights of similarly situated persons with

disabilities and an advocate for asserting his own civil rights. However, Plaintiff is deterred from returning to the Subject Premises as long as the Defendants continue to operate the Subject Premises in violation of the ADA and ADAAG.

24. Plaintiff has a realistic, credible, and continuing threat of discrimination by the Defendants as long as the Subject Premises remains in non-compliance with the ADA.

25. Defendants have discriminated against Plaintiff and others with disabilities by denying access to, and full and equal enjoyment of the goods, services, facilities, privileges, advantages and/or accommodations of the Facility, as prohibited by 42 U.S.C., § 12182, *et. seq.*, and by failing to remove architectural barriers as required by 42 U.S.C., § 12182(b)(2)(A)(iv) and will continue to discriminate against Plaintiff and others with disabilities unless and until Defendants are compelled to remove all physical barriers that exist at the Facility, including those specifically set forth herein, and make the Facility accessible to and usable by persons with disabilities, including Plaintiff.

26. Plaintiff has suffered and continues to suffer direct and indirect injury as a result of the ADA violations that exist at the Subject Premises and the actions or inactions described herein.

27. Plaintiff is without adequate remedy at law and is suffering irreparable harm, and reasonably anticipates that he will continue to suffer irreparable harm unless and until Defendants are required to remove the physical barriers, dangerous conditions and ADA violations that exist at the Facility, including those set forth herein.

28. Plaintiff has been obligated to retain undersigned counsel for the filing and prosecution of this action. The Plaintiff is entitled to have his reasonable attorney's fees, costs and expenses paid by the Defendants, pursuant to 42 U.S.C., §§ 12205 and 12217.

29. Pursuant to 42 U.S.C. §12188(a), this Court is provided with authority to grant injunctive relief to Plaintiff, including an order to alter the subject Facility to make it readily accessible to and useable by individuals with disabilities to the extent required by the ADA, and closing the subject Facility until the requisite modifications are completed.

**WHEREFORE**, Plaintiff respectfully requests that the Court issue a permanent injunction enjoining Defendants from continuing its discriminatory practices, ordering Defendants to remove the physical barriers to access and alter the subject Facility to make it readily accessible to and useable by individuals with disabilities to the extent required by the ADA, closing the subject Facility until the barriers are removed and requisite alterations are completed, and awarding Plaintiff his reasonable attorney's fees, expert fees, costs and litigation expenses incurred in this action.
